PART – III

(A) Read the passage carefully and answer the questions given below :

To have access to safe water and to avoid water crisis in the near future it is necessary that correct policies and schemes are made. Water conservation and its proper management can also be considered as one of the effective steps to avoid crisis. India has a long tradition of water harvesting. Harvesting rainwater is one of the most effective ways to tackle the water crisis. The basic principle is, to collect the rain water where it falls, use it and let it seep into the ground. In this Rashtrapati Bhawan is leading the way. It is one of the few buildings in Delhi that conserves rain water. Aizawl in Mizoram meets most of its water needs through roof top harvesting. In 1994, a law was made for the citizens of Chennai making it compulsory for new buildings to harvest rain water if they wanted municipal water connections.

17. (a) What does India have? 2½
- (b) Which is the building in Delhi that conserves rain water? 2½
18. (a) What is the basic principle? 2
- (b) How does Aizawl meet its water needs? 2
